STAR TREK®
Productions
on AC, CD, DVD, LD, MP3 and/or VHS

Over the years Paramount and others have made numerous Star Trek related productions. An impressive, but not complete list can be found at <http://www.geocities.com/kriegerg69/videos/trekvids.html>.

The productions made by Paramount were partly produced for television broadcasting only and partly for release only on Laser-Disc (LD), DVD and/or VHS. Some of the productions originally made for television broadcasting only, where later released on LD, VHS and/or DVD. This index lists those productions that to my knowledge are commercially available on LD, DVD and/or VHS.

In 1996 Leonard Nimoy (Spock), John de Lancie (Q), and Nat Segaloff formed "Alien Voices" <http://members.tripod.com/~MaryJensen/alienvoices/> to create multi-media works of science fiction and fantasy. Already produced are H.G. Wells' *The Time Machine*, *The Invisible Man* and *The First Men in the Moon*, Jules Verne's *Journey to the Centre of the Earth*, Sir Arthur Conan Doyle's *The Lost World*, *STAR TREK®: SPOCK VS. Q*, and *STAR TREK®: SPOCK VS. Q: THE SEQUEL*. All productions are available on Compact-Disk (CD) and Audio-Cassette (AC). Some also as MP3.
